

Personal TitleMaker

MODEL PTM-1

PERSONAL TITLEMAKER:

What did you expect from a character generator in this price range? Get ready to have your expectations exceeded.

SHOW AND TELL.

ADD CAPTIONS AND TITLES TO YOUR NEXT VIDEO WITH PERSONAL TITLEMAKER.

Now there's a character generator for video producers on a budget. The Personal TitleMaker™ incorporates many of the features found in Videonics' high-end character generators, like high-resolution titles in over one million colors. And even see-through video effects with scroll and crawl capabilities to add credits to video or create video message boards.

Personal TitleMaker has lots of other features you'd never expect from a product in this price range – like patterns, fades, wipes and a lot more. After years of experience engineering professional quality character generators, Videonics has brought high-end technology to the consumer.

EXPRESS YOURSELF WITH 28 FONT AND SIZE COMBINATIONS.

Personal TitleMaker fonts are specifically designed to look great on video. Each line of text can be enhanced with drop shadows, several grades of bold letters, outlines, scrolls, crawls, and much more. And digital technology gives Personal TitleMaker a smooth-as-silk look. Just nice sharp edges.

SPECIAL EFFECTS GIVE YOUR VIDEO AN EXTRA DIMENSION.

Choose from 24 special effects for transitions between title screens, including cuts, fades, wipes and more. And then implement each effect at one of eight speeds. Transitions add that professional touch.

COLOR AND PATTERN: DRESS UP THOSE TITLES.

Imagine a million colors at your fingertips. Personal TitleMaker puts them there. You can apply any color to your titles, outlines, backgrounds, and borders. Then pick a pattern to give your titles a unique look and feel.

GIVE MORE DEPTH TO YOUR WORK WITH SEE-THROUGH EFFECTS.

Superimpose titles over video, or over colored or patterned backgrounds. Even use video as a "color" for titles, backgrounds, or outline/shadow areas. Use dimmed or tinted video as a background for stunning video-on-video effects.

WITH A KEYBOARD THAT WON'T LIMIT YOU.

Personal TitleMaker comes with a full-sized, full-function keyboard that allows you quick and easy access to special effects. So you can make changes on the fly. The keyboard also

includes accented and special characters for 36 different languages.

Call us at 1-800-338-EDIT for the retailer nearest you.

With just a few keystrokes on the full-sized Personal TitleMaker keyboard, you can create special effects like making "glitter" fall from your text or giving it a pulsating appearance.

THE PERSONAL TITLEMAKER.

DON'T
hold
back.
